### **DETAILED ACTION**

This application is a 371 national stage filing of PCT/AU97/00492, filed August 1, 1997, which claims benefit of 60/024,279, filed August 21, 1996.

Applicants amendment filed August 27, 2004 has been received and entered. Claims 48, 49, 54 and 55 have been amended. Claims 36-55 are pending and currently under examination.

### ***Reasons for Allowance***

The amendments to the claims has addressed the basis of the specific rejections set forth under 35 USC 112, second paragraph. Upon consideration of Applicants' arguments, Examiner agrees that the cited art fails to teach or suggest the specific chimeric enzyme comprising a Golgi localization signal and catalytic domain of a fucosyl transferase with the properties taught in the instant disclosure. Importantly, there was no expectation that the encoded chimeric enzyme encompassed by the claims when expressed in cells would act competitively with other endogenous transfereases to reduce the amount of gal- $\alpha$ -(1,3)-gal in said cells.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Joseph Woitach whose telephone number is (571) 272-0739.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Deborah Reynolds, can be reached at (571) 272-0734.

Any inquiry of a general nature or relating to the status of this application should be directed to the Group analyst Dianiece Jacobs whose telephone number is (571) 272-0532.
